## ERASMUS INCOMING STUDENTS

### Welcome to Florida Universitaria in Valencia (Spain).

**FLORIDA** is a Valencian worker co-operative created in 1977 working in the field of education. It has a wide experience in education and training in several education levels: Higher education (university degrees, postgraduate courses and Master degrees), Vocational Education and Training (higher and lower levels), continuous training and Secondary and Primary Education.

The University qualifications provided by Florida Universitaria are officially recognised by the *University of Valencia* and by the *Polytechnic University of Valencia*. University degrees offered by Florida are related to Business Administration, Education, Engineering, ICT and Tourism.

Currently Florida has more than 250 professionals working in a campus located in *Catarroja*, municipality in the metropolitan area of **Valencia (Spain)**. The campus is composed by 6 buildings covering 26,869 m<sup>2</sup>. Every year Florida hosts more than 4,000 students.

Florida, from its origins, has worked in order to provide a high quality, participative and innovative education project. Florida is defined as an innovative and dynamic institution, in close contact with companies and the society. The education and training provided to youngsters and professionals are based on the acquisition of skills and knowledge enabling them to successfully participate in the new business, professional and social scenes of current society. Nowadays, Florida applies **innovative methodologies** to promote the socioeconomic development of the territories by generating inter cooperation experiences related to innovation and entrepreneurship. These methodologies are a result of a wide trajectory of participation on cooperation and research projects at regional, national and international levels.

Florida has also a skilled team of counsellors and education professionals aimed at providing the best guidance to guarantee successful transition to business and employment.

Florida’s mission is **training persons**, fostering the initiative, autonomy and personal growth capacities, in order to achieve the professional and social integration. With this mission in mind, we have developed the *International Semester for Erasmus+ incoming students*.
