

VABILO

Univerze v Ljubljani, Fakulteta za strojništvo,

Vas vljudno vabi na predstavitev magistrskih nalog

Skupnega evropskega magistrskega študija tribologije površin in kontaktov – TRIBOS 2. generacija študentov,

ki bo v petek, 22. 7. 2016 ob 9.00 uri v Leskovarjevi sobi, na Fakulteti za strojništvo, Aškerčeva 6.
z naslovi:

Name: **Liang Ding**

Title: Study of frictional performance of textured journal bearings

Name: **Szerena-Krisztina Ujvari**

Title: Journal bearing friction optimization

Name: **Hari Shankar Vadivel**

Title: Tribological behaviour of hybrid carbon filled UHMWPE composites in water.

Name: **Beata Sigeda**

Title: The effect of N content on the structure, mechanical properties and tribological behaviour of TMD coatings in contact with rubber

Name: **Lumi Canhasi**

Title: Numerical investigation of the effect of out-of-flatness on leakage in metal-to-metal seals

Name: **Ayesha Khalid**

Title: Tribological Properties of Micro/Nano structured Tantalum surfaces by anodization method

Name: **Khawaja Khalid Raza**

Title: Improvement in Tribological behavior of surfaces by texturing

Prof. dr. Mitjan Kalin,
koordinator

Prof. dr. Branko Širok,
dekan
