

Date: 30.3.2017

University of Ljubljana, Faculty of Mechanical Engineering,
Laboratory for Tribology and Interface Nanotechnology, Ljubljana

Invites you to a lecture, given by

Dr. Saša Zelenika

University of Rijeka, Faculty of Engineering
on Tuesday, 4. 4. 2016 at 11.00 in DS-N1 room
Faculty of mechanical engineering, Aškerčeva 6.

Title of the lecture:

Nanotechnology and frictions

"Precision engineering, nanotechnology and friction-related studies at the University of Rijeka"

- illustration of the activities of the Precision Engineering Laboratory of the Faculty of Engineering
- activities and equipment of the Centre for Micro- and Nanosciences and Technologies of the University of Rijeka
- studies of friction:
 - characterisation and compensation of friction in ultra-high precision positioning
 - characterization of parameters influencing friction in the nanometric domain

Prof. dr. Mitjan Kalin,
Head of laboratory

Prof. dr. Branko Širok,
dean
