V raziskovalcu (file explorer) poiščite mapo, kjer imate nameščen program Creo Parametric. Običajno program namestimo v mapo C:\PTC\. V kolikor ste pri prvotni namestitvi pustili privzeto lokacijo pa boste program našli v mapi C:\Program Files\PTC\...

V podmapah moramo poiskati datoteko **reconfigure.exe**, ki se nahaja v mapi bin.
V nadaljevanju sta navedena 2 primera poti za vsako verzijo programa Creo:

<u>Creo 11.0</u>
C:\PTC\Creo 11.0.1.0\Parametric\bin\reconfigure.exe ali
C:\Program Files\PTC\Creo 11.0.1.0\Parametric\bin\reconfigure.exe

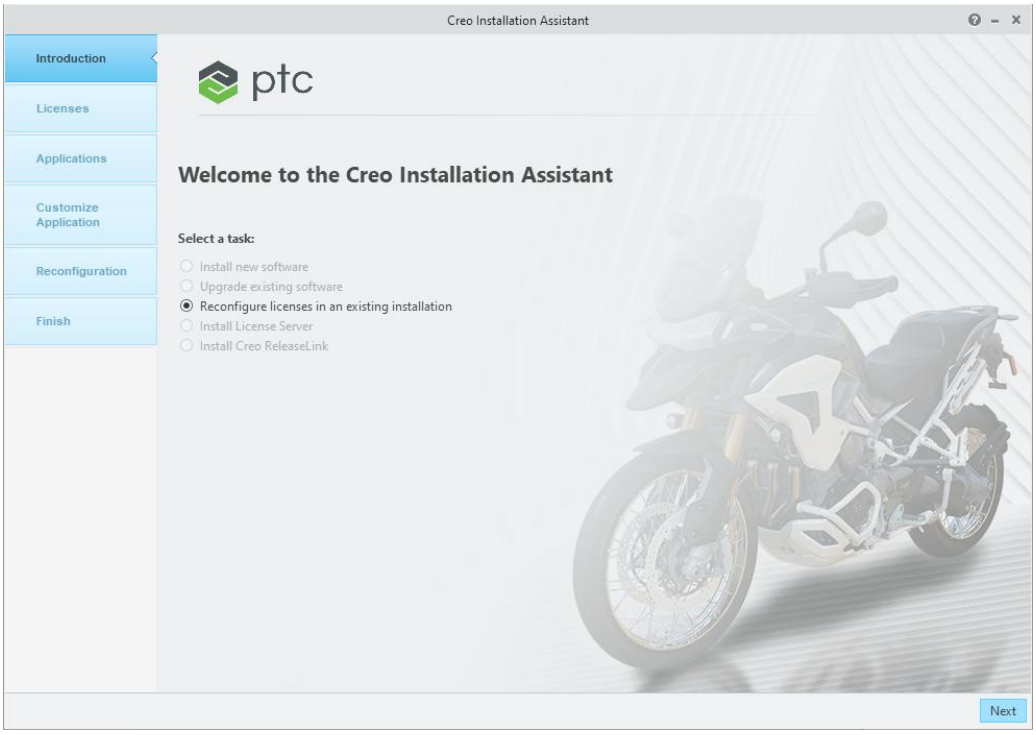

<u>Creo 12.0</u>
C:\PTC\Creo 12.0.1.0\Parametric\bin\reconfigure.exe ali
C:\Program Files\PTC\Creo 12.0.1.0\Parametric\bin\reconfigure.exe

Na spodnji sliki so tudi grafično prikazane poti za različne verzije Creota.

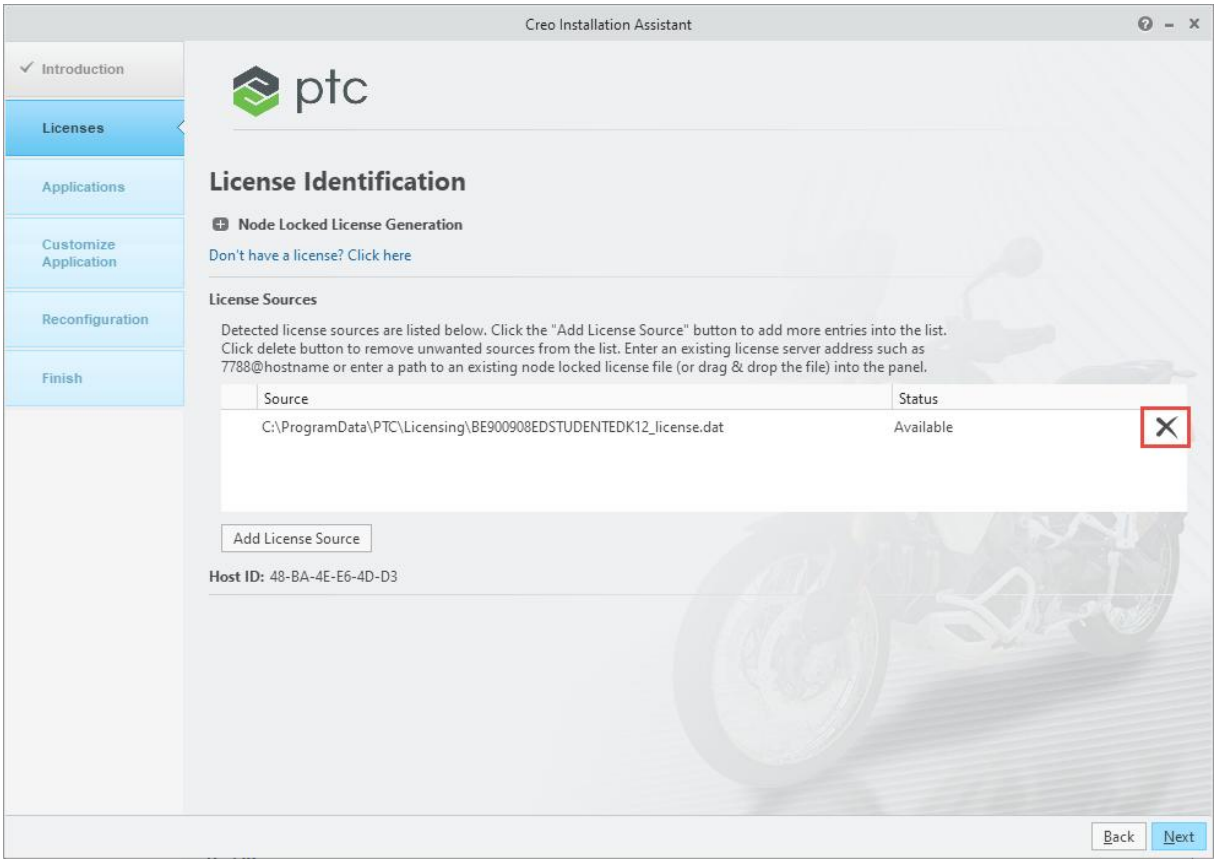

Zaženite **reconfigure.exe**

V oknu, ki se vam prikaže izberite **Next**.

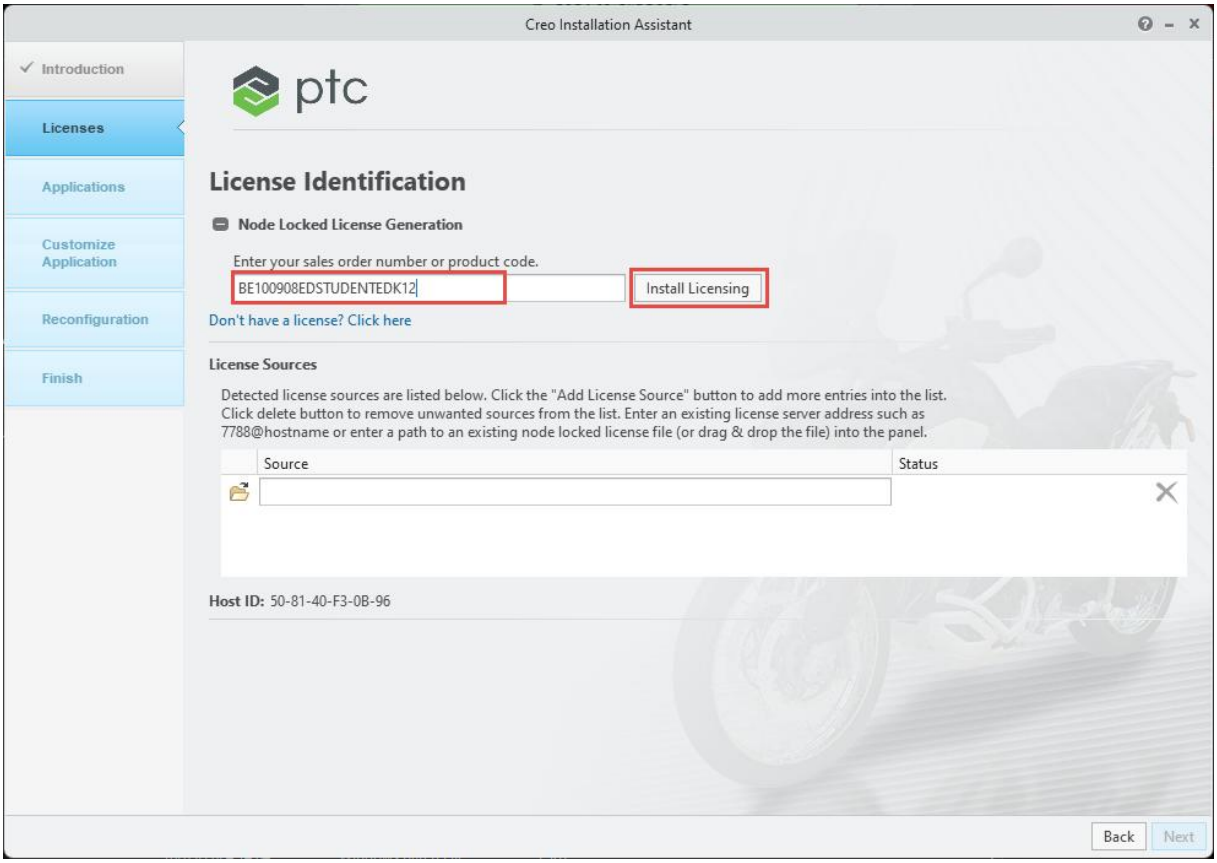

V oknu license summary pritisnite znak minus, da odstranite trenutno pretečeno licenco. V kolikor vam licence ne prikazuje ta korak izpustite.

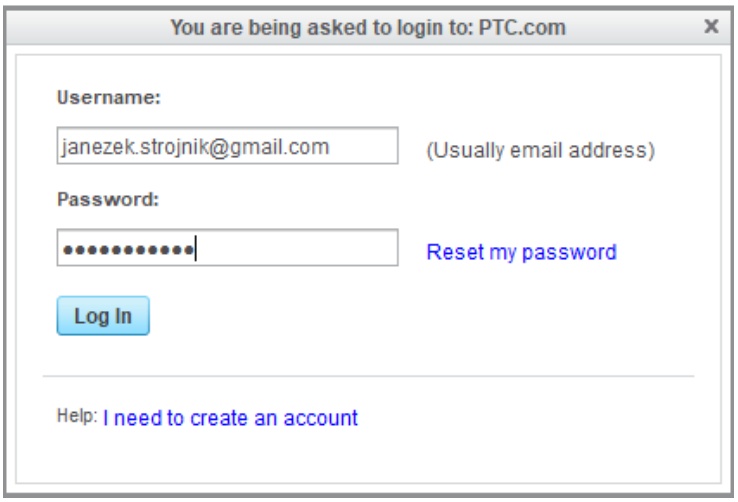

Pri oknu Simple License Entry kliknite na plus in vpišite kodo produkta, ki ste jo prejeli ob prvi namestitvi. V kolikor ste kodo izgubili uporabite kode prikazane v dodatku tega dokumenta:

- Creo 11.0 koda
- Creo 12.0 koda

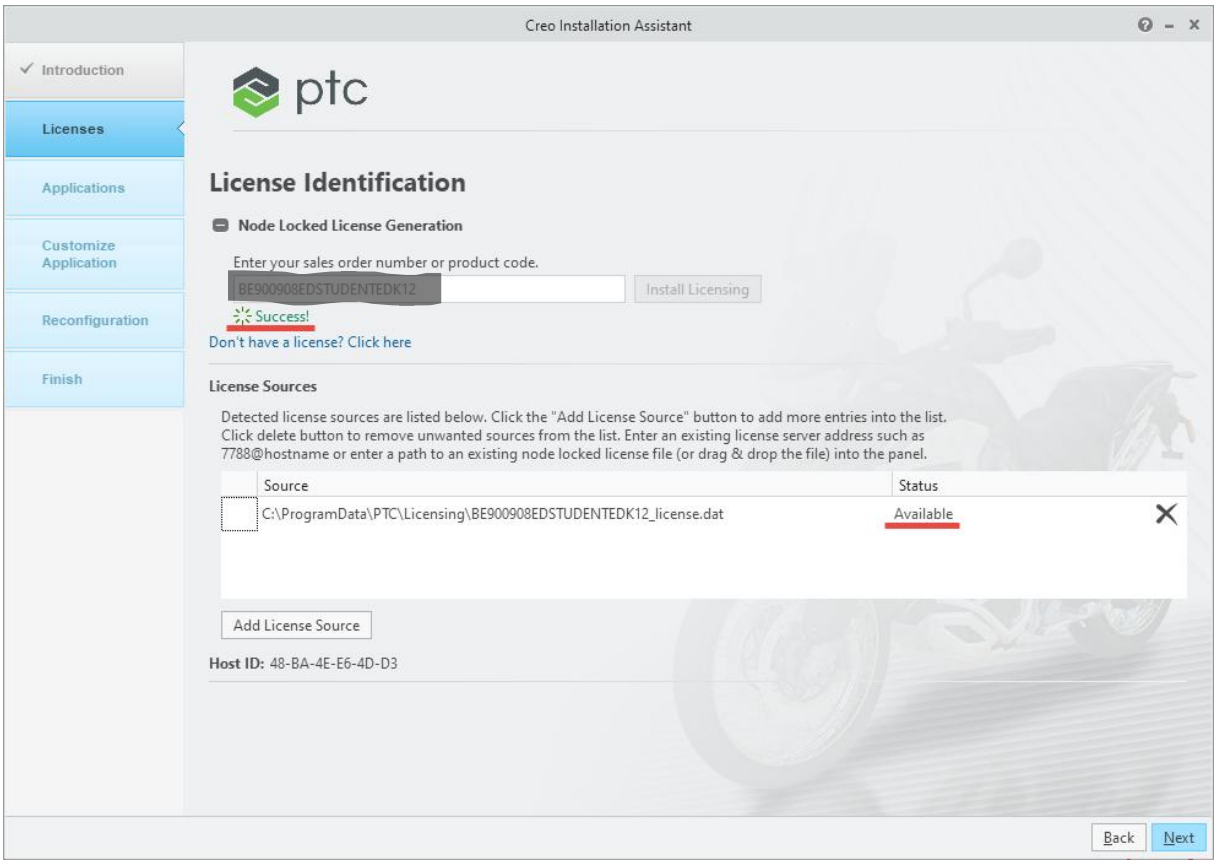

Poskrbite, da ste pravilno vnesli kodo in pritisnite Install Licensing.

Odpre se vam prijavno okno za PTC.com. Vpišite vaš e-mail naslov in geslo, s katerim ste se registrirali na PTC.com ob prvi inštalaciji. Pritisnite Log In.

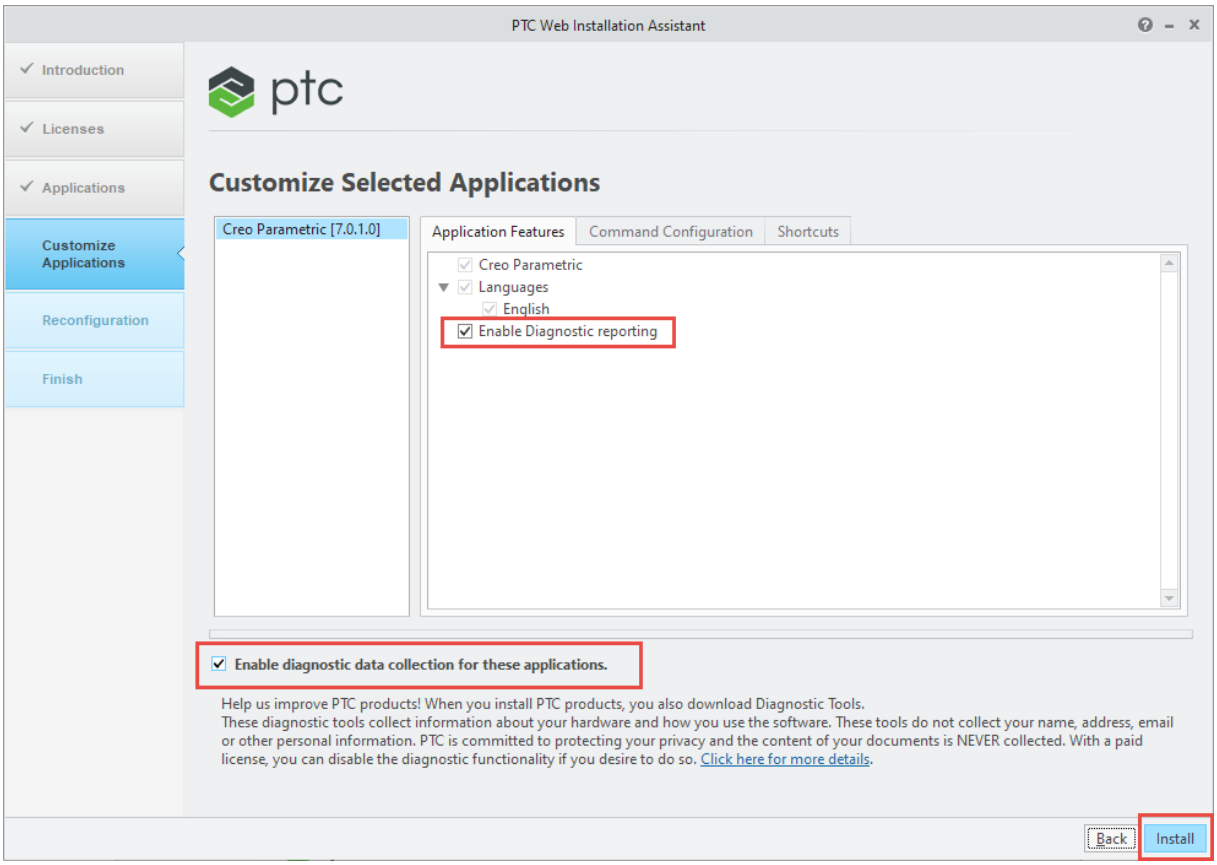

Namestitev licence traja nekaj trenutkov (obstaja tudi možnost, da se namestitveni asistent za nekaj časa ne odziva). Če je namestitev uspešna vam ob namestitveni kodi izpiše opozorilo »**Success**«, v oknu License Summary pa se pojavi pot do na novo generirane datoteke, ob kateri piše status **Available.** Pritisnite gumb **Next**.

V naslednjem oknu kliknite next.

V naslednjem oknu poskrbite, da bo možnost Diagnostic Reporting oz. Enable diagnostic data for these applications obkljukana!!

Pritisnite gumb Install in nato zaključite s konfiguracijo.

Licenco ste na ta način uspešno posodobili.
