Decision of the Senate of the Faculty of Mechanical Engineering, dated 26 May 2011: The seminar is an organized form of study, which the student conducts under the guidance of his mentor and whose results are presented in writing and orally, in front of an expert committee appointed by the Senate of the Faculty of Mechanical Engineering. The seminar is evaluated with 5 ECTS and is obligatory for all doctoral students - level III. **Within the seminar the student is obliged to participate in five (5) presentations of seminars or doctoral topics or in the defence of doctoral dissertations of other students** Attendance at the defence or presentations is recorded in this table. The completed table is submitted by the student to the Student Affairs Office. **Without this fulfilled obligation, the student cannot begin the process of defense of his/her doctoral dissertation.**

Decision of the Senate of the Faculty of Mechanical Engineering, dated 20 June 2019: A workshop for doctoral students on the topic of writing scientific papers is classified as an obligation of the level III students. Students confirm their participation in the workshop by signing the table, which also confirms their presence at presentations or defenses of other level III students. **Depending on the extensiveness of the workshop, this is replaced by two other presentations.**
